The attached is a list of local organizations of good standing who have in one way or another declared their stand in favour of the Anti-Japanese Boycott.

Made by D.S.I. Golder

Forwarded by

J. H. Robertson, Supt.

The organizations in the attached list have shown either by open letters to the press, by letters to their members or by notices in their office premises, that all members are to observe the Anti-Japanese Boycott and that failing which, the offenders would be expelled from membership and a notice of their disloyalty inserted in the local press.

Such actions have been precipitated by letters addressed to the organizations by the Blood Soul Corps for the Extermination of Traitors who during the last month have conducted a terrorist campaign, which has had a far reaching effect, ultimately causing a complete paralysis of trade with Japan.

Present conditions indicate that a trend towards an intense boycott of Japan is in the offing, and that other organizations will join in.
